

Bucket Trap

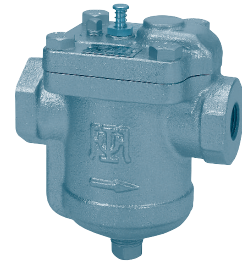

Type B-10A Air Traps

For Air

Useful to compressor which is placed in the oil rich condition

Features

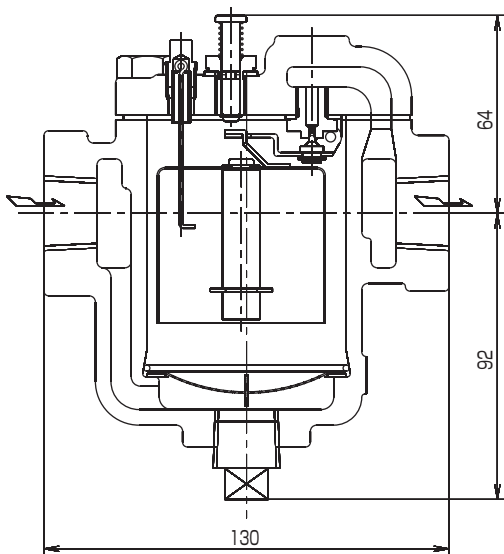

- Bucket with automatic oil cleaning mechanism
- Test stick to check remaining drain
- Built-in strainer
- Balance pipe is not necessary

Specifications

Fluid		Air, gases, drain
Maximum pressure		1.4MPa
Maximum temperature		80°C
Size		15—25
Connection		Screwed JIS Rc
Material	Body, Cover	Cast iron
	Seat	Stainless steel
	Bucket	Stainless steel
	Gasket	Graphite & Stainless steel
Weight		3.0kg
Use for		Air, Gas
